Men and women of every race understand that **Race-mixing destroys** **our People**

RACE-MIXING DESTROYS our people! This is the message that millions of thinking men and women of every race are coming to understand. Racial integration is just another kind of genocide – the murder of the races.

White, Black, Brown and Yellow – all are threatened by race-mixing. All are realizing just how much their own unique racial and national identities are worth to them. And all understand how the mud-coloured nightmare of the race-mixers would spell the destruction of their ancestral roots and their children's heritage.

The "multi-racial experiment" of the 1960's has *failed*. In spite of all the propaganda about equality, different races are still better at different things, and people still want to work and live with their own folk, still want to have children and grandchildren who look like them and understand their culture.

All over the world, it is clear that the "melting pot" slogans of racial integration have brought nothing but unhappiness, uncertainty, envy and racial violence.

And all over the world, people are speaking out and asserting their rights, not to exploit others, but simply to preserve their own racial and cultural identity.

BLACK SEPARATISTS

In America, tens of thousands of Blacks flock to give wild applause to the "Black Pride" message of Minister Louis Farrakhan. An intelligent man and a brilliant speaker, his Black Muslim organization calls for laws to outlaw inter-racial sex and marriage. He calls for the creation of an independent Black nation, either in North America or in Africa, where all the Black people now living in the USA would settle and run their own affairs.

Many thousands of Blacks in Britain agree with Farrakhan's aims, indeed the very basis of the Rastafarian religion is that the Black man should return to Africa. Hundreds of thousands more would probably support Minister Farrakhan, but this peace-loving man has been banned from entering Britain by the Home Office. And the mass media have attacked him, claiming that he holds "Nazi" views!

In Japan, the effort to preserve the Yellow race involves strict controls on the numbers of foreigners in the country and effective steps at all levels of education to build a strong sense of racial identity. A senior Japanese government minister recently stated publicly that the main reason that his country is doing better than America is that its population is not made up of mixed races. The Japanese intend to

keep it that way.

PRESERVATION

In Canada and the USA, thousands of Red Americans have realized that the integration of their surviving pure populations into the Coca-cola "melting pot" would complete their cultural and physical extermination. Thousands of young American Indians are joining militant separatist organizations dedicated to the preservation of their culture, traditions and racial identity.

In Europe, the French have taken the first steps towards ensuring the survival of their nation by paying French mothers for having extra children. They hope that this will boost the birthrate, which has fallen below replacement levels. And they have started giving big cash payments to North African immigrants in the country who agree to go home. The French want France to remain French in every way.

In Britain, thousands of Asians are demanding that their children be

taught their own native cultures and religions in their own languages in their own Asian-run schools. They rightly fear that if their kids go to our schools, they will grow up confused and unsure of their identity, and that they'll forget their own ancient cultures and become rootless Brown Westerners.

REAL LIFE

And among the White British, things are no different. In spite of all the millions of hours and tons of paper devoted to race-mixing propaganda by capitalist TV stations and communist teachers, the vast majority of the British people want their country, and their grandchildren, to be White.

Attempts to force race-mixing lies into junior schools and nurseries have provoked outrage among parents. Older children and teenagers mix overwhelmingly with their own kind. And in spite of mass media pressure to make them "fashionable," mixed-race relationships are still frowned upon in real life.

Everyone knows that the mixture of two races *destroys* two unique sets

of culture, history, and mental and physical characteristics. Everyone knows in their hearts that this is wrong.

"MASTER RACE NONSENSE"

In the past, Whites have been made to feel guilty about feeling like this. The mass media always tell us that any White person who expresses pride in Race and Nation is evil, and believes that Whites are a "Master Race" who must hate or exploit other races. This is nonsense.

White racialists, like our Black, Yellow, Red and Brown counter-parts, don't believe that our people are superior – just that *we are all different*. The desire to preserve these differences is *not* based on hatred of others, but on *love of our own kind*.

There is a saying that "Black Is Beautiful." We agree! But *White is Beautiful too*. So is every race. But Mud is Ugly, because, as Minister Farrakhan agrees:

**RACE-MIXING
DESTROYS OUR PEOPLE!**

EDITORIAL OFFICE, P.O. Box 41, Norwich, NR3 2AH.

SUBSCRIPTION DEPT., P.O. Box 228, Manor Park, London E.12.

A Common Cause

THE DEFENCE of Britain's European culture and White racial identity has always been at the centre of National Front policy. From the foundation of the party in 1967 right up to the present day, opposition to mass coloured immigration and the call for repatriation has been the hall-mark of the NF. It has made us a household name throughout Britain.

The National Revolutionary leadership and cadres of our movement today are as determined as the party ever has been to ensure that this remains the case. But beyond that we have little or nothing in common with some of our predecessors. For them, opposition to multi-racialism was based on purely negative hatred of Blacks and Asians. For us, it is based on *love* of our own peoples and ancient culture.

The negative racism which infected sections of the Front until recently was largely a product of British imperialism, which sought to justify the domination of other peoples' countries by portraying them as members of "inferior" races who needed to be "civilised" and turned into coloured Britons. This prejudice was reinforced by the natural inability and unwillingness of immigrants brought here by the million since the war to integrate into our alien (to them) society and to accept our laws and social values.

COMPLETE CONTRAST

In complete contrast, the *racialist* position now adopted by the National Front is based on the Nationalist principle that self-rule and the preservation of racial and cultural identity is the inalienable right of all the peoples of the world, regardless of creed or colour. This leads us to regard multi-racialism as a deadly threat not just to our White nations, but to all the wonderful variety of races and cultures in the world.

Because of this, we do not see Blacks or Asians as enemies, but as potential *allies* in the fight against multi-racialism. We have far more in common with members of other races who are proud of their identity and wish to preserve it, than we do with White race-haters who seek the destruction of their own and other peoples through integration. Scientific arguments about mental or physical superiority are utterly irrelevant. We are not interested in alleged superiority, simply in the fact that we are all *different*.

SPREADING THE MESSAGE

NF News believes that this positive approach to the Race question is not only the morally correct one, but also an angle which will prove far more popular with the mass of British people than racist bigotry or skull measurements. We therefore welcome the decision by the National Front's ruling Directorate to launch the biggest nationalist campaign for years on this question.

Further issues of this paper, posters and leaflets will all be used to make this as effective as possible. National leaflets are not stunningly valuable as a method of active recruitment, but it is felt that the sheer volume of well produced propaganda which they allow our most inexperienced new supporter to distribute will help correct the public image of our views. Units must continue in-depth political and Community Action work in their target wards, but it is also vital that the NF's positive message on Race be heard over a much wider area. This is what makes the new national campaign so important.

IMPORTANT NOTICE. For more than a year, the National Front has been subjected to massive interference with the post going to and from its main offices. In order to minimize the disruption this State action causes, you are asked to *hand in* correspondence for every NF operation whenever possible.

If you do have to use the Post Office, *always use recorded delivery* and keep your receipt safely.

An obscure but sinister organization

FOLLOWING OUR report on the shadowy **Economic League** in issue 87, the NF's Security Department has obtained copies of the League's "briefing" on the National Front.

The Economic League is an obscure but sinister organization which is funded by Big Business and aided by the State. It provides a "screening and information service" to employers in exchange for financial backing. In other words, it gets paid for spying on workers. Most large companies subscribe to this "service" which screens prospective employees to see whether or not they are "desirable."

Information, much of which is totally inaccurate, is held on tens of thousands of ordinary people all over the country. And it makes the difference between getting a job or not. *If you are on the League's computer files, it is very unlikely that you will be employed by a subscribing company.*

A brief look at its Policy Briefing on the National Front shows the type of dangerous and inaccurate rubbish which the Economic League collects and distributes to thousands of companies. It doesn't matter too much when these lies are about an organization, but what about the thousands of ordinary people who have been placed on the files – often as the result of inaccurate and malicious gossip.

LIES

A large part of the four-page document on the NF is full of *Searchlight* type lies, and there is no doubt that much of the "information" used by this capitalist snooping agency is supplied by that communist smear-sheet. The League repeats all the classic *Searchlight* lies.

They claim that the NF

organizes attacks on Asians in East London – but ignore the fact that the Home Office report on racial attacks said that there was absolutely no evidence for this.

They say that the NF is involved with "terrorists", but again produce no evidence, save to point to non-existent links with the perfectly legal Ulster Defence Association. They also repeat the lie that a group of Italian political exiles with a similar political outlook to the NF were responsible for a series of terrorist bomb outrages in Italy. Again, the League chooses to ignore the fact that the former head of the Italian military police has been jailed for these bombings, and for trying to frame the young Nationalists who were wrongly blamed. And they fail to mention that a British court freed them because there was no evidence against them.

And the League alleges that leading NF activists are frequently convicted for fire-arms offences. This is also nonsense.

All this fantasy and hysteria would be laughable if it was not for the fact that this type of rubbish is not just held on organizations like the NF,

THE ECONOMIC LEAGUE

but on thousands of ordinary citizens as well. And unfortunately, the right-wing take it all very seriously.

CONTRADICTIONS

It does not seem to worry them that the whole document, and no doubt their wholing filing system, is full of absurd contradictions. For instance, our economic and social policies are described as "collectivist." Then in almost the same breath it acknowledges that we oppose "both Capitalism and Communism because they place power in the hands of the few. . . instead the NF is in favour of small businesses, partnerships and workers' co-operatives."

It is clear that the Economic League just don't have a clue, but hide behind their fancy title and plush offices, pretending to be well-informed. *For this organization to be taken seriously by anyone is ludicrous, but when it means that they can determine whether or not people like you can get a job, it becomes extremely sinister.*

It is just another example of the hidden repressive hand which controls the "free West."

REVOLUTIONARIES TODAY

A Nine-Part Series

PART VII – THE NATIONAL FRONT

While the Revolutionary Right is at present at a low ebb, it would be a mistake to dismiss it as just a nasty nuisance that presents no real threat. Like the extreme Left it is increasingly encouraging and promoting violence. For the time being on both sides there is probably more rhetoric than reality.

At the same time there is a huge boom in the sale of so-called 'survivalist' and 'martial arts' equipment – guns, knives, catapults, crossbows and other weapons. This rapidly growing cult has its own literature also aimed at glorifying violence and making it more acceptable.

Both the far Right and the far Left are seeking to inflame and use continuing racial frictions. It is a volatile mixture which left unchecked could become extremely dangerous.

FRONT-LINE ACTION

Consett

NFN Supporters and Friends of the Movement in Consett gave the movement a valuable boost in early July when the group pictured here appeared on Channel 4's *Eleventh Hour* documentary. The programme was about various aspects of life in the former steel town, which was one of the first casualties of the EEC/Thatcher "rationalization" massacre of the British steel industry.

The trendy Red hacks filming the interview were amazed by the scope of the NF's Third Position ideology. They struggled repeatedly to bring the conversation round to the Race issue, in the hope of getting some titillating bigotry. But the Front's Geordie followers are rightly proud of their radical stand, so they were disappointed. The interview which went out was a credit to the Nationalist movement.

TECHNOLOGY FUND APPEAL

THE NF's computerization programme is about to take its next step forward. Just one more push will get us the first of the modems and software we need to send *NF News* text over the telephone. The extra time gained by this will help massively with the prompt appearance of the paper, and make it easier to insert last minute corrections and "Stop Press" items.

This will cost just under £ 250. In our last issue we were pleased to announce that £ 119.50 had come in in the previous three weeks towards this. The donations listed below have been received since then. They add up to a further £ 96, which means that we are now just £ 30 off the next target milestone in the drive to put the National Front at the forefront of modern technology.

Many thanks to: D.H., Liverpool - £ 41; B.H., Cambs - £ 15; V.G., Accrington - £ 1; G.K., Hants - £ 5; J.C., Stoke £ 5; A.W., Keighly, £ 5; H.P., Leicester - £ 5; P.M., Loughborough - £ 1; J.W., Surrey - £ 10; B.H., Cambs - £ 6; GH, Caerdydd - £ 2.

We feel sure that you will want to help *NF News* smash through this barrier by next issue, getting the modem and giving us a flying start for the next part of the appeal.

The staff and sellers of this paper constantly risk arrest and imprisonment under the repressive Race Laws to bring you the truth about the state of Britain today - and hope for the future. Particularly if you cannot be actively involved, the least you can do is help provide the assets needed to produce a top quality paper.

Please send whatever you can afford to *NF Technology Fund*, P O Box 228, Manor Park, London E.12.

BLACKPOOL

BLACKPOOL *NF News* Supporters flung themselves into the movement's "Don't Vote" campaign in the recent General Election. Thousands of abstentionist leaflets were distributed in their target ward and elsewhere in the area.

In addition, hundreds of posters were put up and distributed to supporters. Although launched at short notice, the campaign had a real impact. As our picture here shows, the Front's radical approach appears to have converted at least one Alliance supporter as he seems to have gone out one night and pasted our posters over those of his own candidate!

Cymru

Having opened their own local P O Box in Caerdydd, *NFN* Supporters in Cymru are working hard to build a firm base for the Front in the Valleys. They have kept up a steady barrage of letters to the local press, with a fair degree of success. Now they are working to convert the interest aroused among unemployed youth in the old mining areas into solid support.

Internally, our Welsh comrades always make the effort to send a small group of people to Britain-wide activities. They hope to join the Distributist League shortly, to raise funds to help their steady progress.

Thurrock Gazette

I WOULD like to respond to the allegations against the National Front in your paper on behalf of an unnamed spokesman for the so-called Thurrock Anti-Racists and Fascists.

The National Front is not a fascist or racist party, but a "Third Positionist" movement which seeks to decentralise political and economic power in Britain - be it from Parliament to local councils or multi-nationals to workers' co-operatives.

We are a racialist movement believing in racial separation because we love our people and culture and respect the right of other

racists to do the same, unlike racists who hate other people and cultures.

The allegations that we are involved in racial attacks, etc, is false. We seek political, not physical, answers to Britain's problems. If, however, TARF may have any evidence of racial attacks they should contact the police. Otherwise they should immediately issue a public apology to all members of the National Front.

Anyone wishing further information should contact Thurrock National Front, PO Box 27, Dagenham, Essex RM9 4BN - S. SAXBY, Thurrock National Front.

This is what's wanted for all races

WHY is it that people view the National Front as being a racist organisation who hate blacks and view them as sub-humans. This is pure trash that people who fear us put about.

We do not hate black or Asians, but respect them. We respect their uniqueness. Blacks and Asians are as separate races as are the Europeans and Orientals.

True, we would like them repatriated to their country of origin, but only because multi-racism breeds hatred which is then stirred up by racist Tory bigots and the Labour socialists.

As Mohammed Ali once said: "It is against God's law to integrate. It's only nature, not hatred, to

keep people among their own kind. A man has to be a fool to live in any culture but his own." What wisdom this black man had.

Just as we love our race so we expect blacks to love theirs. Their repatriation would mean less unemployment here, and a chance for the black to get jobs and self-awareness at the countries of their forefathers amongst their own kind free of prejudice and harsh policing at the hands of the white Capitalists.

We, the National Front, want the best for all races; this does not mean capitalist apartheid which is happening in South Africa. We do not want blacks used for cheap labour by white bosses.

We want all countries, one race countries. Particularly Britain and Wales. Here we would have workers co-ops producing goods they can be proud of.

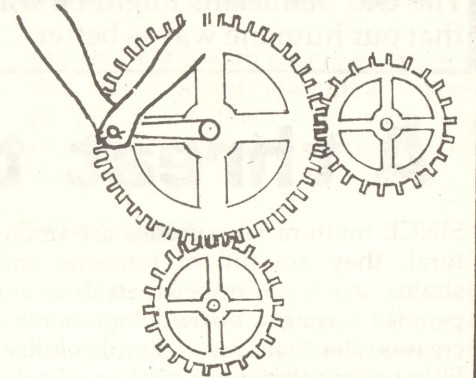

People must have a pride in their work, race and nation to live a life of love, freedom and joy and not scraping by as they do now by kicking others in the teeth. But they must also respect other races and cultures.

AT THE START of the National Front's biggest campaign for several years, NF News takes an in-depth look at the vital questions surrounding the issue of Coloured Immigration in Britain.

It is essential that every NFN Supporter and every sympathetic reader understands that the National Front's stand on this subject is not the result of hatred of other races, but from love of our own. The articles in this feature should make our position clear. We do not blame coloured people for being in our land, but we are determined to overthrow the System which brought them here.

The "multi-racial experiment" has failed, we believe that it must be ended now, in the interests of *all* the different races temporarily resident in Britain. Quite simply, we believe that Britain will one day face a stark choice: *Repatriation or Race War*. The Old politicians might be willing to risk the latter, but we think that our humane way is better.

A threat to Freedom

SINCE multi-racial societies are unnatural, they are full of tensions and strains. As hostility between different peoples wrongly thrown together increases, the State has a simple choice: Either admit that it has made a mistake and start a programme of repatriation, or clamp down on the first murmurings of discontent and hope to screw down the lid on the boiling pot.

The British State has chosen the second course, and we are already seeing the steady development of a repressive Police State as a result. *White discontent* is mainly being dealt with by means of a relentless barrage of multi-racialist propaganda designed to convince us that our own culture and way of life is so dull and inferior that we need an influx of foreigners to "enrich" it.

And to ensure that a Nationalist answer to this nonsense isn't heard, the State has established a series of Race Laws, which make opposition to the slow destruction of our national identity a "crime." Less obviously, a vast range of repressive techniques have been used against the National Front to curb our effectiveness as a political alternative to the present System.

Our activists lose their jobs, our activities are illegally banned by the police, the authorities turn a blind eye to attacks on our people by cowardly Communist mobs, phones are tapped, police infiltrators split our ranks — the list is almost endless.

Coloured discontent is contained in the same way, but the State has additional weapons of repression. Black leaders from overseas who could

arouse hostility to multi-racial exploitation are forcibly kept out of the country. Kwame Ture and Louis Farrakhan are just two of the best known Black leaders who have been thrown out and banned from this "democratic" multi-racial paradise. Sikh and Tamil separatist leaders have been dealt with in the same way.

And as a last resort, the police have been tooled up and turned into a street army equipped to crush the inevitable explosions of anger from young coloureds who find that they have no future in our society.

Even more than the Whites, it is young Blacks and Asians who are in conflict with the British State. This is unavoidable, because they will always be in conflict with the State until they are ruled by one which reflects their own cultures and values — *and that can only happen when they return to their own lands.*

Three common lies about White Pride

THE RACE-MIXERS know that they can't find convincing answers to the arguments of White and Black separat-

ists for the right to preserve their identity. So they try to confuse people with a whole series of lies about what we

believe and about the background to the problem of coloured immigration.

Three of the most common lies produced by Marxist and Capitalist race-mixers are:

"Britain has always been a nation of immigrants — Celts, Saxons, Vikings and Normans — so a few new ones will make no difference."

This is a lie because it ignores one simple fact: All the tribes which merged to create the native peoples of the British Isles were of closely related White European stock. They shared very similar racial, psychological and cultural backgrounds, which helped to weld the mixture together into the harmonious and tightknit British nations which have contributed so much to the world.

The post-war flood of millions of immigrants with totally alien racial and cultural backgrounds is a very different thing. If not reversed it will lead to the destruction of the identity of our peoples and their replacement by a rootless mud-coloured mass — a human ant-heap with no past and no future.

"The NF blames the Blacks for unemployment."

This is a lie. We believe that unemployment is caused by the same corrupt capitalist system which brought the coloureds here as cheap labour in the 1950's and '60's. The presence of millions of immigrants certainly doesn't help with problems like unemployment and the housing shortage, but it is *not* their root cause.

As Nationalists, we believe that only a revolution in economic, social and political life can make Britain a country worth living in for all our people. Making Britain White again is just one small part of our programme for National Rebirth.

"More people leave Britain every year than immigrate here, so there's no danger of us being 'swamped' by immigrants."

This is true if you just think in terms of numbers, but when you look at it carefully, the facts add weight to the NF message and provide a frightening warning. Because the majority of the people who *emigrate* from Britain each year are *White*, while the majority of *immigrants* are *Blacks or Asians*.

This means that Britain is changing colour *twice as fast as the official figures admit*. And when the higher birthrate of the immigrant population is taken into account as well, it becomes all too clear that our descendants will one day become an oppressed minority in their own country.

The National Front is pledged to do everything in its power to prevent such a tragedy while there is still time. If you agree with our aims, don't worry about the lies of our opponents, *get involved and help save Britain.*

We were never asked

"WE WERE quick enough to welcome them here when we needed extra labour after the war, so now we must put up with it." This is another argument you sometimes hear from people who want integration to destroy our nations. It is wrong in several ways.

The ordinary British people *never* asked for a single coloured immigrant to be brought in to this country. We were never even asked if they should be brought in.

In fact, even committed multi-racialists have admitted that popular opinion has always been in favour of a White Britain. In the words of Harold Wilson, Labour Prime Minister who let in almost as many immigrants as the Tories did: "The vast majority of the British people have consistently opposed immigration, with a large majority - usually more than 80% - in favour of repatriation."

But the corrupt politicians of the Old Parties conspired to deny the native peoples the right to vote on the issue. Repeated requests for a referendum were ignored. At election times, Tory, Liberal and Labour candidates and the mass media deliberately made immigration a "non-issue."

In this undemocratic way, mass coloured immigration was forced on the British peoples, against their will.

IMMIGRATION FOR PROFIT

So if ordinary people never wanted the immigrants brought here, who did? The answer is simple. Coloured immigration was the work of greedy factory bosses in search of bigger profits. After the last war our competitors like Japan saw that the way to boost profits was to reinvest most of their earnings in modern equipment to boost productivity. But many British bosses decided to keep the profits for their short-term benefit. Instead of solving the temporary labour shortage with new equipment, they deliberately imported hundreds of thousands of Blacks and Asians as cheap labour.

So immigration was a capitalist trick to avoid the expense of modernization, to keep down wages and to weaken the trade unions by flooding Britain with unorganized coloured labour. And the Marxist "opponents" of capitalism helped them do this, because they saw that a mass of disgruntled aliens at the bottom of the social heap would be easily manipulated "cannon-fodder" for a Red "revolution."

So we see how the system is based on *exploitation* - exploitation of the immigrants, as well as native Britons.

Race~mixing causes unnecessary hatred all over the world

can cooperate with others who respect this fact, but any attempt to make a people share their land with large numbers of foreigners is bound to lead to disaster.

INEVITABLE

The inevitable growth of racial hostility in an overcrowded island like Britain means that *repatriation* is the only possible peaceful solution.

The United Nations helped organize just such a repatriation programme in Sri Lanka (then Ceylon) back in 1948. In an effort to relieve tension, half a million Tamil immigrants were moved back to their Indian homeland. But this brave and humane action was not followed through. Many Tamils stayed in Sri Lanka which, like Britain, was subjected to a "multi-racial experiment."

The result can be seen there all too clearly now, with terrorist bomb outrages and massacres by the army taking place every day. It is a terrifying thought, but only the prompt reversal of the failed "multi-racial experiment" in Britain can prevent the same sort of racial violence building up here.

MULTI-RACIALISM NEVER works. This basic lesson of human history has been reinforced over the last few months by the tragic scenes of hatred and death on our TV screens from Fiji and Sri Lanka. Both of these tropical "paradise islands" have been gripped by bloodshed between rival ethnic groups. The coloured natives are afraid of being overwhelmed by Indian immigrants and both sides are fighting to protect their identity and culture.

It is clear from this that racialism - the desire to be with your own kind of people - is not some special sickness of the White race, but a natural and worldwide human instinct. Races and nations which have their own territory

Most Sikhs wish to establish their own nation - Khalistan - in the Punjab. The NF supports their struggle for self - determination.

THE TRADITIONAL 12th July celebrations in Ulster this year again saw a major push by the National Front to build sales and influence. A dozen members from England and Wales joined with local cadres and supporters in an intensive four-day sales drive.

NF News was sold on parades in Belfast, Lurgan, Newtownabbey, North Antrim and Scarva. In addition, street sales teams found a good response in Portadown, Banbridge, Newtownards and the Shankill Road, and door-to-door sales were held in inner and outer east Belfast.

The parades themselves seemed quieter than usual this year — a reflection of the gloom which has settled on a loyalist community betrayed by Westminster treason and the incompetence of its old leaders. This seems to be the main reason for a significant drop in sales at these events on last year's showing — although they remain far higher than anything on the mainland.

Another factor in this was the increased hostility of RUC officers and senior Orange Lodge officials, who had clearly been prepared this year and encouraged to interfere with NF sales. This was only to be expected as we have consistently attacked the RUC as overpaid lackeys of the Thatcher/Dublin junta, and have opposed the leaders of Orangeism as reactionary bigots. Their changing attitude towards us is a clear sign that they are now taking the NF threat to their positions of corrupt privilege very seriously.

Door-to-door sales, on the other hand, were still remarkably high, with over 600 copies being sold in one long afternoon alone.

Sellers from the mainland who had been active in Ulster before were also pleased to find that more sales were to people who understood and supported the NF's Independence call, rather than to luke-warm supporters interested in an organization which opposes IRA demonstrations on the mainland, but which has no constructive solutions to the continuing cycle of violence.

SMEAR STORY

One thing which unwittingly contributed to this was a major smear story in the Belfast Newsletter only days before the annual celebrations. The section reprinted here does the National Front little harm, but taken as a whole the article was a subtle but vicious attack on the NF.

Its main thrust was that the Front is "split" between the official National Revolutionary position of NFN and the "moderate" faction of reactionaries ex-

ing extremists are planning a major recruiting and sales drive across Ulster over the Twelfth period. COULTER investigates the move by Northern Ireland's neo-fascist movement.

Middle-class disillusioned with Unionist leadership'

Movement dedicated an independent Ulster

pelled from the movement last year. The article gave the impression that the reactionaries are a credible force rather than a failed splinter group. Their leaders were given big photo puffs and their promise to bring over three minibuses loads of paper sellers was taken seriously.

In fact the strength of this tiny group can be seen by the fact that all of their leadership were too busy getting drunk or stealing each others wives (as exposed in a recent *Private Eye*) even to bother to turn up, and by the way in which the two full minibuses which they had boasted of as going from London were both cancelled when no-one wanted to go.

As well as this massive exaggeration of the factional problem, the Newsletter article contained all the usual wild lies about NF training camps with "lessons on the use of automatic weapons," and about an alliance with European terrorist groups.

OUTRAGEOUS

The apparently fair reporting at the start of the article very cleverly lends credibility to these outrageous claims made later on. The reporter responsible is one John Coulter and this is not the first time he has used this trick against the NF. NF News therefore thought that our readers should have a chance to find out a bit more about this man, so that they will understand his motives better.

John Alexander Coulter is in his late twenties. He comes from Clough, Ballymena in Co. Antrim. After study-

ing at Coleraine University between 1977-80 he became a freelance journalist. After a spell telling lies about radical loyalists with the local BBC, he went to work as the Education Correspondent with the Belfast Newsletter. He is a clerk for the Century Newspapers Branch of the NUJ.

For a while at university, Coulter flirted with several Marxist groups. He still has close friends in the British & Irish Communist Organisation and has been seen with literature from the Trotskyite Socialist Workers Party and the Revolutionary Communist Party.

UNIONIST

But it seems that Coulter's hatred of the NF is also the result of his family background. His father is Cllr the Rev. Robert Coulter, a leading official in the Ballymena Official Unionist Party and a key member of its Molyneux faction (the Orange section). Molyneux is the Sovereign Grand Master of the 70,000 strong Royal Black Institution, and Coulter's father is his second in command.

This puts the Coulter family right at the top of the Orange establishment in Ulster, which has deliberately encouraged sectarian hatred in order to cloak its long exploitation of ordinary working people from every religious background. These people naturally see the National Front's call for the establishment of an independent, non-sectarian Ulster state as a threat to their old political power. And of course our Third Position economic policies

would break their capitalist grip on the economy.

Led by Paisley and Molyneux, they are trying to convince ordinary loyalists that if only they will sit back and do nothing (except give money) their great political "leaders" will somehow persuade the Tories to drop the treasonable Anglo-Irish Agreement. This of course is nonsense. The only thing which can save Ulster from Westminster indifference, United States pressure and Dublin imperialism is mass action by the people themselves to seize control of their own country.

AWARENESS

NF News sellers this year found a greatly increased understanding of this fact, and also an awareness that this is unacceptable to the "Fur-Coat Brigade" of wealthy Unionists. This is the reason for Coulter's subtle anti-NF propaganda, and indeed for the editorial line taken by his paper and the Belfast Telegraph, both of which preach the need for moderation and constitutional waffling, even though it is plain that the time for such talk is long gone.

This corrupt unionist establishment would rather see Ulster sink into sectarian civil war than see changes which would bring hope and peace, but which would reduce their personal political, social and economic power. More than the traitor Thatcher, more than the murdering cowards of the IRA, these people are the greatest enemies of the New Ulster.

"LIONS LED BY DONKEYS." The youth of Ulster still have a sense of tradition and a spirit which is unrivalled in the whole of Europe. They could create a new nation founded on freedom and justice, but failed old leaders are dragging them towards defeat and a sectarian bloodbath.

The National Front is the movement of Britain's youth. And youth is the movement of the future!

COMMUNITY ACTION

COMMUNITY ACTION is the local campaigning wing of the National Front. The NF believes that people should organize self-help schemes to get things done in their own communities. Every step which reduces our servile dependence on political parties and the "Nanny State" is to be encouraged.

This page exists to publicize and support such initiatives, whether they are organized by active nationalists or by other members of the public.

FIGHTING FOR OUR COMMUNITIES

Claiming Your Rights

EACH and every year thousands of pounds worth of benefits and financial help for the needy go unclaimed simply because the people entitled to it - those in need - do not know that they are entitled to certain kinds of help.

This is so because of the States reluctance and refusal to widely advertize these benefits in order to penny-pinch from those who they have already condemned to a life of misery in Capitalist Britain.

The first steps along the path to Victory

THE NATIONAL FRONT is Britain's only effective Nationalist movement. If this country is to be saved from destruction by multi-racialism, Capitalism and Communism, it will only be through the victory of the National Front.

There are several other so-called "Nationalist" groups, but they cannot compete with the NF. Indeed, they are mainly composed of reactionaries, drunks and police informers who have been thrown out of our organization in the drive to put *quality before quantity*. The National Front is in a completely different league to these dead-end splinter groups. Just look at the facts:

Only the National Front has a nationwide sales unit structure capable of mounting effective campaigns. During the recent General Election, for example, NF activists distributed 100,000 "Don't Vote" leaflets and put up thousands of striking posters with the same theme. All this was done in just two weeks. No other "Nationalist" group lifted a finger during the election.

Together with the resulting publicity, it meant that hundreds of thousands of people got the Nationalist message and learned why parliamentary representation is an undemocratic farce. Intelligent new recruits have been won as a result.

Only the National Front can produce a professional ten page newspaper. During the election, we produced two issues in less than a month. A fortnightly *NF News* gives the Front a powerful agitational voice which none of our "rivals" can begin to match.

Only the National Front has an internal structure and constitution which is designed to fit the needs of a revolutionary nationalist organization aiming for real power. It is a structure which gives control of the movement to the activists, organizers and propagandists who do the work. It is a structure based on commitment, and authority.

It is difficult to infiltrate and would not grind to a halt with the removal of a few key people. This realistic and efficient structure gives the NF a massive advantage over its competitors, who are either "organized" like a school debating club, or are lumbered with corrupt and blinkered dictatorship.

Only the National Front is well financed through imaginative trading operations which provide funds for its national operations and its local sales units at the same time. And only the NF has a co-ordinated plan to use a growing income to build a modern propaganda machine using all the latest technology.

These facts explain why the National Front is bigger than all the other little "Nationalist" sects put together. They make it clear that to waste time or money supporting any "Nationalist" group other than the NF is a diversion which actually hinders the building of a genuine Nationalist movement capable of taking power in this country.

The facts make it clear that *only the National Front is the Movement of the Future*.

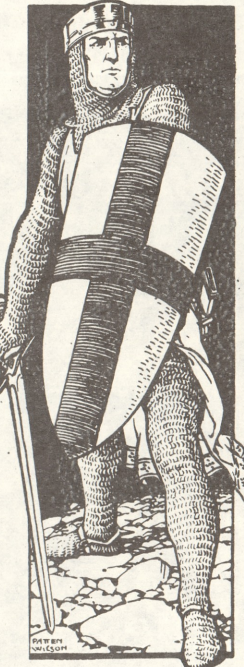

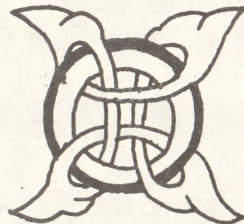

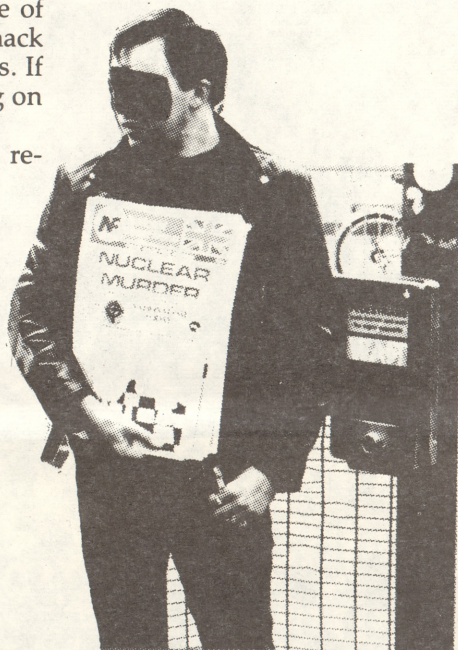

For more information phone 01 373 3432, or write to P O Box 57, Romford, Essex, RM7 9BG.

NATIONAL FRONT NEWS is Britain's only National Revolutionary newspaper. This makes it the only real alternative to the unholy alliance of capitalist media bosses and communist hack journalists which dominates the "British" press. If you want to read the truth about what is going on in Britain today, you'll only find it in *NF News*.

This is why capitalist newsagents chains refuse to stock this paper, and why Marxist thugs and the Tory-controlled police often try to stop *NF News* from being sold on the streets. So if you want to be sure of receiving Britain's only genuinely Nationalist newspaper every time it comes out, take out a subscription today.

For just £7, you will get 12 issues of *National Front News* delivered to your door. Please make cheques/P.O.'s payable to *Nationalist Publications* and send by recorded delivery to P O Box 228, Manor Park, London E.12.
